A REVOLUTION IN WATCH MAKING

2622 East Pleasant st.
Colorado Springs, CO 15628 555-123-1234 www.aviator.com

This was the vision of Aviator watch company, and it has inspired our company through over a century of watchmaking for military, commercial, and hobby pilots alike. An unflagging quest to increase both the precision, utility and beauty of our watches has resulted in many world-firsts. In 2012 we teamed up with Garmin to launch the world's first GPS watch, it was immediately recognized as the new global standard by markets worldwide.

As we look forward to the next decade, our commitment to our founder's vision will remain undiminished, but we aim to add a new, extra dimension to the watches we offer. As well as innovative technology and a finely honed approach to design, we aim to create watches that have a strong emotional appeal and that will enrich the lives of our customers. Time is to be enjoyed and our aim is to touch people's hearts worldwide, adding a touch of fun and excitement to their lives. These ideas come together in a new expression that will guide our future. "Moving Ahead. Touching Hearts."

fēnix® 5X

Slate Gray Sapphire with Black Band

The D2 Delta series can make quick work of flight logging and other record keeping tasks. During takeoff, the watch will detect your aircraft's change in altitude and automatically initiate the logbook function — recording date, duration, total flight time and route.

AVIATOR MENS QUARTZ 48MM STAINLESS STEEL CASE BLUE DIAL -

Aviator has been cleared for takeoff. Ready to roll with full throttle, carrying designs honoring aeronautical graphic history, each timepiece is a delicate machine waiting for its pilot in command. Whether a short trip, or a life long journey, the Aviator is your first instrument on land or while cruising the skies.

AVIATOR SWISS MOVEMENT QUARTZ WATCH - STAINLESS STEEL CASE WITH BLACK TONE POLYURETHANE BAND - MODEL 10683

From the renowned Aviator collection by Invicta, this stylish timepiece is powered by a finely crafted Swiss Quartz movement. Featuring a stunning 49 millimeter Stainless Steel case accented by a Black tone Polyurethane band, it is the perfect accessory for function and style. Protected by a Flame Fusion crystal and water resistant up to 100 meters.
